

Queen of Hearts

Fitz and the Tantrums

I'm in the danger zone
Chemical overload
I feel a vibe
Down for a ride
She's so incredible
She got a way with me
Poker Face, hard to read
Robbing me blind
Look at my eyes
I'll tell you anything

I'd do anything

She's my queen of hearts
Baby, how you make me show you all my cards
Sweet, but she get spicy when we're in the dark
I could fall apart
She could get it all, bet it all
On my queen, queen, queen of hearts

She can get it all, bet it all
On my queen, queen, queen of hearts

Are you feeling lucky?
Touch me
Follow like a puppy
Ever since I met you, I don't want to be alone, no, I don't
I'm on the road, where do you go?
So hot, she cold
She already know, already know

She's my queen of hearts
Baby, how you make me show you all my cards
Sweet, but she get spicy when we're in the dark
I could fall apart
She could get it all, bet it all
On my queen, queen, queen of hearts

I'm in the danger zone
Chemical overload

She could get it all, bet it all
On my queen, queen, queen of hearts
