Sunshine

Fitz and the Tantrums

When it's all falling down
I've been drifting around for days
When the rain won't stop
And the clouds are undercover and grey
When every bit of light is lost
Don't wake me 'til the storm is gone
Cause it's all falling down
Gotta run, get me out
Get away

Up before you wake
I'm planning our escape
And now the dark is gone

I'm looking for some sunshine
Just a little down time
Copacetic, all fine
Cause I know it'll be alright

When I'm dead in my head I forget everything that was real
Like the rays on my face, all the memories that I hide and conceal
'Til I can't feel, the wheel
I'm gonna drive 'til the lights gonna find me
I'll go all night if the shine's gonna blind me
Summertime skies up ahead
I'm keeping the glow

Up before you wake
I'm planning our escape
And now the dark is gone

I'm looking for some sunshine
Just a little down time
Copacetic, all fine
Cause I know it'll be alright
I'm looking for some sunshine
Just a little down time
Copacetic, all fine
And I know it'll be alright

Always said it's gonna get better tomorrow
They say it out loud, but they don't know all of my sorrow
Sometimes it feels like the world's coming for you
Tearing you down like a cold blooded soldier
Summertime vibes on the way
I'm keeping the glow

Up before you wake
I'm planning our escape
Cause now the dark is gone
Yeah now the dark is gone
Yeah now the dark is gone
For that sunshine
