

## Cradle to the Grave

Five Finger Death Punch

The blood that runs within my veins  
Keeps me from ever ending up the same  
The fire that's pushing me on and on and on  
To me it's everything and it makes me fucking strong

Love me or hate me  
I walk alone

Been called a monster, called a demon, called a fake  
I'm not an idol, not an angel, not a saint  
I walk alone, I always have, I'm not ashamed  
A living nightmare from the cradle to the grave

The soul that lives within my chest  
Just won't allow me to turn out like the rest  
The heart that's driving me on and on and on  
Has the same vision and it keeps me fucking strong

Love me or hate me  
I walk alone

Been called a monster, called a demon, called a fake  
I'm not an idol, not an angel, not a saint,  
I walk alone, I always have, I'm not ashamed  
I've always been a living nightmare  
From the cradle to the grave

I walk alone

Been called a monster, called a demon, called a fake  
I'm not an idol, not an angel, not a saint,  
I walk alone, I always have, I'm not ashamed  
A living nightmare from the cradle to the grave

I walk alone

Been called a monster, called a demon, called a fake  
I'm not an idol, not an angel, not a saint,  
I walk alone, I always have, I'm not ashamed  
I'll always be a living nightmare from the cradle to the grave
