## Five Finger Death Punch

This is the end, I can't take anymore  
This is where I'm fuckin' drawing the line  
You talk a great game, trying to make a big name  
Soon you're gonna run out of time  
I've got news for you, I got nothing to lose  
If you were smart you'd simply run and you'd hide  
You're such a dumb punk, such a fuckin' weak chump  
Don't have the balls to look me dead in the eyes  
Boom!

You're a... you're a... you're a...

You're a fake mother fucker, I hate you mother fucker  
I'll break you mother fucker, you're mine  
You're a joke mother fucker, you gloat but you're  
a sucker  
Such a fuckin' waste of my time  
You smile and wave with your borrowed fame  
But everybody sees through the lies  
You're a fake mother fucker, you're dated mother fucker  
And you're never gonna get what is mine  
Fake, you're fucking fake!

What's in a name that could truly make me so sick  
Think about the shit that you say  
You'll wish you never crossed me, you had me then you lost me  
You're losing all your buck with your bank  
You've got a big mouth, makes me want to tear it out  
Really don't have nothing to say  
I'm not your scapegoat, ram it down your damn  
throat  
For me it's just another day!

You're a... you're a... you're a...

You're a fake mother fucker, I hate you mother fucker  
I'll break you mother fucker, you're mine  
You're a joke mother fucker, you gloat but you're  
a sucker  
Such a fuckin' waste of my time  
You smile and wave with your borrowed fame  
But everybody sees through the lies  
You're a fake mother fucker, you're dated mother fucker  
And you're never gonna get what is mine  
Fake, you're fucking fake!

Fake! You're such a... you're such a...  
You're such a... you're such a fake  
You're a fuckin' fake  
You're such a fuckin' fake  
You're just a fake fake fake fake

You're a fake mother fucker, I hate you mother fucker  
I'll break you mother fucker, you're mine  
You're a joke mother fucker, you gloat but you're  
a sucker  
Such a fuckin' waste of my time

You smile and wave with your borrowed fame  
But everybody sees through the lies  
You're a fake mother fucker, you're dated mother fucker  
And you're never gonna get what is mine
