## **Matter of Time**

## **Five Finger Death Punch**

What kind of man would I be If I accepted defeat What would my eulogy read Here lies a wasted soul

What would my destiny be What sort of life would I lead Consumed by apathy Spinning out of control

It's how we live
How we live that defines us
What we change
And what we leave behind
You know you can't
You can't take it with you
Your day will come
It's just a matter of time

What type of man should I be You know - so you tell me Stomp out my identity So I can be just like you

What kind of life should I lead You'd have me down on my knees Treat me like I'm the disease Fuck you

It's how we live
How we live that defines us
What we change
And what we leave behind
You know you can't
You can't take it with you
Your day will come
It's just a matter of time

It's how we live
How we live that defines us
What we change
And what we leave behind
You know you can't
You can't take it with you
Your day will come
It's just a matter of time
