

# Above The Timberline

Five For Fighting

I get a little tired  
Looking through the trees  
Sitting on the 405  
Hoping for a breeze

Everybody's gunning  
They got something to see  
I gotta sell this ticket  
Get the shadow off of me

So what is your problem?  
You've been moping around  
You need to find a mountaintop  
And get out of this town

She says sometimes  
You gotta get away  
Clear out that noggin  
Open up the day

Above the Timberline  
The higher I go  
The harder I climb  
I'm closer to you  
It's clear in my mind  
Love shines bright above the Timberline

Things get slower  
When it's harder to breath  
I can almost touch the stars  
That are hanging over me

You've never been more beautiful  
it's easy to see  
All that really matters  
You're all I'll ever need

I'm getting to the home  
At the top of the world  
Leaving trivialities  
Up down at the curb

All that noise between us,  
Now it can't be heard  
I'm listening to the wind  
I'm writing down the words

Above the Timberline  
The higher I go  
The harder I climb  
I'm closer to you  
It's clear in my mind  
Love shines bright above the Timberline

Now I'll be coming home,  
I'll be coming home soon  
Before I head on down

I'm gonna kiss the moon

Above the Timberline  
The higher I go  
The harder I climb  
I'm closer to you  
It's clear in my mind  
Love shines bright above the Timberline

Above the Timberline  
No hitting the brakes  
No waiting in line  
The farther you go  
The harder you'll climb  
Love shines bright above the Timberline
