

# Feel Much Better

Five Star

You've been gone for a long time  
And our never ending lives have come to an end  
I just want to love you  
Like I've never before  
Now I know I spend a long time hiding, yeah  
After all our fussing, here comes a change of heart  
But I just need to show you  
How much I need you tonight  
I need you  
I gotta have you, gotta have you, baby  
Baby, it's a long time coming

Making love to you  
Fill me with your love  
(Fill me with your touch, I really need your loving)  
Just wanna be touched (me touching you)  
Let's go on forever  
So deep in you (so many feelings deep inside)  
(When I feel your heart right next to mine)  
So much tenderness inside (inside, baby)  
Let's make it last, make us feel much better

Dim the lights and come to me  
(You gotta come to me, come to me)  
Show me the rhythm that I've been waiting for  
Baby, I can't pretend  
This feeling I'm feeling inside  
It's got me wanting you more, more...  
Make believe, oh honey  
Like sugar so sweet, I want to stay forever and ever  
I'm gonna make this night  
A night that you never forget  
Gotta give you real love, gonna make you feel good  
Ooh ooh ooh, yeah  
Boy, I really need you  
I'm gonna give you all of me, yeah

Making love to you (me and you can never be too much)  
Fill me with your love  
(Really need your touch, really need your hugging)  
Just wanna be touched (me touching you)  
Let's go on forever  
So deep in you (so deep inside)  
So much tenderness inside (inside, baby)  
Let's make it last, make us feel much better

Making love to you (me and you can never be too much)  
Fill me with your love  
(Fill me with your touch, I really need your loving)  
Just wanna be touched (me touching you)  
Go on forever  
So deep in you (so many feelings deep inside)  
(When I feel your heart right next to mine)  
So much tenderness inside (keep it coming nice and slow)  
Let's make it last  
(Baby it will) make us feel much better  
It will make us feel much better
