

Get A Life Together

Five Star

It's 7 A.M. and the clock strikes
Watchin' as the hand's movin' round in motion
With a thought inside my head
With the rhythm of life tappin' on my shoulder
I'm just sayin' to myself
Gotta get up, make a brand new start
And see it through
Take a stand, won't you make a move
There's nobody else is gonna do it for you

I know it's true
Got to get myself together
Just live your life
Look ahead, not behind
And you know you'll make it through
I know it so
Got to put it all together
Now take the time, do it right
Get a life and you know you'll see it through

I got to get a life together
I need to make a brand new start
I got to get a life together
Now's the right time
I got to get a life together
I need to make a brand new start
I got to get myself together
Just look ahead, not behind, it's true
