Physical Attraction

Five Star

It's you, I'm fine
I see you coming, I stop
Huh, tension
I mean you gotta relieve my mind, huh!

Physical attraction
It's getting stronger
I can't fight it any longer
Physical attraction
Gotta get to know ya
Before the party's over

I was gonna leave at 12:00
'Cause there was nothing happening
I was tired of dancing by myself
But just as I was checking out
I saw you walking in
Ooh, and just like a magnet
I could feel the power
Pulling me back to you
Baby, I know you can feel it, too
We've got to get closer

Physical attraction
It's getting stronger
I can't fight it any longer
Physical attraction
Gotta get to know ya
Before the party's over

Physical attraction
Ha!

Ah, boy, I like the clothes you wear
You're a perfect sight to see
And I know it's not polite to stare
But every time I look at you
You're looking back at me
Ooh, we're caught in the magic
It's so hypnotizing the way we feel tonight
Baby, the only thing that's on my mind
Is getting you closer

Physical attraction
It's getting stronger
I can't fight it any longer
Physical attraction
Gotta get to know ya
Before the party's over

Ooh, you look good to me
Ooh, tonight
Ooh, such a sight to see
I know we gotta get closer

Physical attraction
It's getting stronger

I can't fight it any longer
Physical attraction
Got to get to know ya, come on
Before the party's over

It's you, I'm fine
I see you coming, I stop
Huh, tension
I mean you gotta relieve my mind
It's you, I'm fine
I see you coming, I stop
Huh, tension
I mean you gotta relieve my mind

Physical attraction
It's getting stronger
I can't fight it any longer
Physical attraction
Got to get to know ya, come on
Before the party's over

Physical attraction
It's getting stronger
I can't fight it any longer
Physical attraction
Got to get to know ya, come on
