

Fix Me

Five Times August

Look at my face, you can't tell
Wouldn't know it hides well
Can't let go, it's in my blood
It's all I ever wanted

Slowing down, I can't move
I battle my faith to get through
Can't let go, I'm holding on
It's all I ever wanted

So where did i go wrong?
You've got me singing the same songs
Now you hold my own heart against me
I can't say if I tried enough
I can't tell if I want too much
I was there when you needed mending
Now I need you to fix me
Turn around, it's okay

I'll find a new course each day
Can't let go, it's way too hard
It's all I ever wanted

You've taken from me when you hurt
Another soundtrack for your world
Use my words and don't look back
That's all you ever wanted

So where did i go wrong?
You've got me singing the same songs
Now you hold my own heart against me
I can't say if I tried enough
I can't tell if I want too much
I was there when you needed mending
Now I need you to fix me
