# God Help Us All

**Five Times August**

Lock down all towns
Everybody slow down
Give 'em everything you have
Mask up, vax up
Get your body trashed up
Better do what they ask

It's alright, okay
Sorry, but ya can't pray
Gotta keep the church doors closed
No superstitions, a saint politician
Will tell ya what you need to know
Citizen fools
And brand new rules
Make everyone a hero now
So keep your distance
No resistance
Only do what you're allowed

Cash that check
Go dance in the wreck
But just don't speak your mind
Get your facts
From the paid contracts
'Cause never would they tell a lie

They don't know me
And they don't own me

Oh God help us all
Look what we've become
Oh God help us all
And fix what we have done

See no evil
Bow to the needle
Didn't we turn out great?
Sick is the new health
Poor is the new wealth
Truth is whatever they say
Expert lectures
Media protectors
Tell me who to love and hate
Jail in the network
Hail to the Zuck-berg
Head down, just behave

Liberty, freedom, angels, demons
Someone's in control
Well, no way, no how
I wouldn't say it too loud
Don't you know they're on patrol?

Need more likes
Post up, let's fight
There's no way that you're wrong
Gotta listen to the science

'Cause it's all about compliance
You agree or you're gone

They don't know me
And they don't own me

Oh God help us all

Look what we've become
Oh God help us all
And fix what we have done
Sell my info
Hacked in, don't know
Show me what I need to buy
Sex consumption
No corruption
Just as advertised

You've been labeled
And I've enabled
Better apologize
Propaganda
Racist slander
Time to organize

Shot, bang, who's next?
Brain dead, useless
Show it on the TV screen
Tell me who to vote for
Gotta start a new war
Wouldn't want to live in peace

Divide and Conquer
Weak, not stronger
Everybody know your place
Do it now, won't hurt
Dig into your own dirt
Virtue found it's grave

They don't know me
And they don't own me

Oh God help us all
Look what we've become
Oh God help us all
And fix what we have done

Incite violence
Enforce silence
Mainstream message
Won't you guide us?
You know what is best
For our own good
Anti-this and anti-that
Cancel this and cancel that
Take it to the streets
And the neighborhoods

Worship actors
Food and drugs
Brand yourself
Give them your blood
Don't believe your eyes

Don't look around

Fake news, rumors, Ok boomer
Ignorance will stain our future
Will ya make it through
Or burn it down?

Oh God!
Oh God!
Help us all
Oh God!
Help us all

Oh God!
Oh God!
Help us all
Oh God!
Help us all

Oh God!
Oh God!
Help us all
Oh God!
Help us all
