

# God Help Us All

Five Times August

Lock down all towns  
Everybody slow down  
Give 'em everything you have  
Mask up, vax up  
Get your body trashed up  
Better do what they ask

It's alright, okay  
Sorry, but ya can't pray  
Gotta keep the church doors closed  
No superstitions, a saint politician  
Will tell ya what you need to know  
Citizen fools  
And brand new rules  
Make everyone a hero now  
So keep your distance  
No resistance  
Only do what you're allowed

Cash that check  
Go dance in the wreck  
But just don't speak your mind  
Get your facts  
From the paid contracts  
'Cause never would they tell a lie

They don't know me  
And they don't own me

Oh God help us all  
Look what we've become  
Oh God help us all  
And fix what we have done

See no evil  
Bow to the needle  
Didn't we turn out great?  
Sick is the new health  
Poor is the new wealth  
Truth is whatever they say  
Expert lectures  
Media protectors  
Tell me who to love and hate  
Jail in the network  
Hail to the Zuck-berg  
Head down, just behave

Liberty, freedom, angels, demons  
Someone's in control  
Well, no way, no how  
I wouldn't say it too loud  
Don't you know they're on patrol?

Need more likes  
Post up, let's fight  
There's no way that you're wrong  
Gotta listen to the science

'Cause it's all about compliance  
You agree or you're gone

They don't know me  
And they don't own me

Oh God help us all

Look what we've become  
Oh God help us all  
And fix what we have done  
Sell my info  
Hacked in, don't know  
Show me what I need to buy  
Sex consumption  
No corruption  
Just as advertised

You've been labeled  
And I've enabled  
Better apologize  
Propaganda  
Racist slander  
Time to organize

Shot, bang, who's next?  
Brain dead, useless  
Show it on the TV screen  
Tell me who to vote for  
Gotta start a new war  
Wouldn't want to live in peace

Divide and Conquer  
Weak, not stronger  
Everybody know your place  
Do it now, won't hurt  
Dig into your own dirt  
Virtue found it's grave

They don't know me  
And they don't own me

Oh God help us all  
Look what we've become  
Oh God help us all  
And fix what we have done

Incite violence  
Enforce silence  
Mainstream message  
Won't you guide us?  
You know what is best  
For our own good  
Anti-this and anti-that  
Cancel this and cancel that  
Take it to the streets  
And the neighborhoods

Worship actors  
Food and drugs  
Brand yourself  
Give them your blood  
Don't believe your eyes

Don't look around

Fake news, rumors, Ok boomer  
Ignorance will stain our future  
Will ya make it through  
Or burn it down?

Oh God!  
Oh God!  
Help us all  
Oh God!  
Help us all

Oh God!  
Oh God!  
Help us all  
Oh God!  
Help us all

Oh God!  
Oh God!  
Help us all  
Oh God!  
Help us all
