

My Song

Five

So here's how it started, started with a beat
A beat in my head and it wouldn't go away
So I added a bass, the bass was phat
I played it to my boys on a 24 track
They like that uh, he hand clap followed by the mic check
No time for dinner, Five's out on the night shift
Shady eyes in the middle of the night
Into the dawn 'til the lyrics lock tight
On the mix tell the DJ, quick Five boom

He kept playing my song
On and on all night long
He kept playing my song
On and on all night long

Rip it up, everybody, rip it up one time
Let me bring your rigidy rugged flow for your mind
Got what you need now, let me break it down
Five on the low with the funk for your town
Down on the floor now, let me see you move
This time tonight, now it's time to groove
Who got the champion sound? Understand
Rhyme for rhyme, Five on the low down

Get down, get down
Get down, get down
Get down, get down
Check it

He kept playing my song
On and on all night long
He kept playing my song
On and on all night long

Like I said before, I got the funk for your trunk
From the junkyard to the Boulevard
Here we come, ladies, lock tight
Woo with that straight Five, dead right
Party's over here, we got the Five boom all night
We made a hit, yet another home runner
And sweet sugar J got you hot like the summer
So I'ma stepping back and let the DJ bust the mix
Five boom

Get down, get down
Get down, get down
Get down, get down
Get down, get down
Get down, get down
Get down, get down
Get down, get down

He kept playing my song
All night long
He kept playing my song
All night long

Baby, bounce, let me see you bounce to this
I get the mic technique to help you use your ears
So you sit by the radio, hands on the dial
Soon Five on the jam, time to pump up the volume
Another fly track to get down
Let me see you move, time for you to get down and prove it
Ain't no doubt that we're fly
So don't deny (no, no)

He kept playing my song
On and on all night long
He kept playing my song
On and on all night long
He kept playing my song
On and on all night long
He kept playing my song
On and on all night long
