

# You Make Me a Better Man

Five

There's something 'bout your eyes  
That makes me search my soul  
That makes me try to realize  
I'm tryna be a better man

You gotta know what's on my mind  
I will give you all my time  
Oh, I feel for you, baby, yes, I do  
All I want is you

And when I search my soul I find  
A better place to be around  
I'm tryna tell you what's on my mind  
But will I make it through in time?  
And when I search my soul I find  
You make me wanna be, yeah, a better man

I've never felt so in love  
The way I feel when you touch  
Although it doesn't sound that much  
All I have to do is look in your eyes

You gotta know what's on my mind  
I will give you all my time  
Oh, I feel for you, baby, yes, I do  
All I want is you, woah

And when I search my soul I find  
A better place to be around  
I'm tryna tell you what's on my mind  
But will I make it through in time?  
And when I search my soul I find  
A better place to be around  
I'm tryna tell you what's on my mind  
You make me wanna be, yeah, a better man, alright

I wanna take you higher  
I wanna reach for the sky  
I wanna show you fire  
I'll never tell you goodbye  
I wanna take you higher (yeah, yeah)  
I wanna reach for the sky (oh, baby)  
I wanna show you fire  
I'll never tell you goodbye (you're on my mind)

And when I search my soul I find  
A better place to be around  
I'm tryna tell you what's on my mind  
But will I make it through in time?  
And when I search my soul I find  
A better place to be around  
I'm tryna tell you what's on my mind  
You make me wanna be, yeah, a better man, alright  
You make me wanna be, yeah, a better man
