

## Bad Moods

Fivefold

Sick of dealing with your bad moods yeah  
Shake it off less I lose myself  
Say something that'll hurt me less  
And it's all just fighting  
Unless it's you  
That is winning the battle  
And I'll take the blame  
Long as you don't say  
You want me to go  
But it's killing me to

Write it off like I don't deserve a little more  
Compassion for the passion I'm giving you  
It's always been all our nothing  
But now I don't know what to say to you  
Do you love me the way that you did yesterday

This will only open the wound  
Not sure how to sell it to you  
Either way I lose  
My pride or my June  
And in summers past  
We used to laugh it off  
Like cheers to growing  
But now it storms  
And I don't know  
If it's me that keeps  
This going

And it's all compassion  
But the tractions gone  
We're loosing the battle  
No more calling names  
Of the pain we keep  
Hidde inside us  
But it's killing me to

Write it off like I don't deserve a little more  
Compassion for the passion I'm giving you  
It's always been all our nothing  
But now I got nothing to say to you  
Do you love me the way that you did yesterday

I think we could use  
Some time away  
Relearn how this  
Fire is made  
Well I'd say that  
I miss the girl that  
Made my heart sing  
We're not falling apart  
If we take it back to  
The start

Write it off like I don't deserve a little more  
Compassion for the passion I'm giving you  
It's always been all our nothing

But now I got something to say to you  
Do you love me the way that you did yesterday

Do you love me the same  
Do you love me the way that you did yesterday
