

Dear Insecurity

Fivefold

Relax, just take a breath
I'll never get why you do this to yourself
In your core, you wage this war
But none even know's why you are fighting it for
And you think so much about the way you will feel
And making a hole to die
Too mixed up in hole that is in a way
It takes every part of you to say

Dear insecurity
Losen your noose around me

Relax, you're at an hour
Feel like you're on drowning in our love
Your thought's like a sea
All memory's
Each one oh, we've been drowning, can you see?
'Cause your thing's to much
About the way you will feel
And making a hole to die
Too mixed up in hole that is in a way
It takes every part of you too say

Dear insecurity
Losen your noose around me
The weight will pass we all say
Perflexing everything hence
Ooh, dear insecurity

Insecurity, you're not fun to me
Leave me in my head, and you're tied to me
When you crash on me every single thing
I've began searching "set me free"

(Dear insecurity)
Losen your noose around me
The weight will pass we all say
Perflexing everything... hence
Ooh, dear insecurity...
