

# Just Close Your Eyes

Fivefold

It's a smoke and mirrors  
It's a day in day out prison  
You're living in, it's smothering the power in you  
To look through the window  
to see this ray of light  
It's calling you to fight  
Another day

When the world's out of control  
And time is always racing  
Everybody has a place  
Where they can let it go

And fall into the feeling  
Take a breath and never leave it  
When the world is overwhelming  
Just close your eyes, you'll find the  
Strength to seize the day  
Nothing standing in your way  
Just fall into the feeling  
Take a breath, it's time to let it go  
It's time to let it go

And now the walls they crumble  
Every time you step away from  
Distractions they only  
Show what you'll never be  
And when light comes in  
Like a storm always raining  
You gotta pull that light  
From the inside, and fight on

When the world's out of control  
And time is always racing  
Everybody has a place  
Where they can let it go

And fall into the feeling  
Take a breath and never leave it  
When the world is overwhelming  
Just close your eyes, you'll find the  
Strength to seize the day  
Nothing standing in your way  
Just fall into the feeling  
Take a breath, it's time to let it go

And wha-ah-oh, I have found the light  
At the bottom of my demise  
It's going to carry me home  
Hoo, and a whoa-oh whoa-oh, we all have the right  
To rise above all the push and shove  
Just close your eyes!

And fall into the feeling  
Take a breath and never leave it  
When the world is overwhelming  
Just close your eyes, you'll find the

Strength to seize the day  
Nothing standing in your way  
Just fall into the feeling  
Take a breath, it's time to let it go  
It's time to let it go  
It's time to let it go
