

## Lost A Friend

Fivefold

Why'd you put me in that situation  
Best guess I have you caught some feelings  
Words from a friend misunderstanding  
Like I'm the one who's here to save yah

But that shovel's got your name on it  
I don't care anymore how far you traveled  
To see me lose a friend

So I called a plane like a lifeline  
I could not find your intentions  
Was it all a game or are you  
Twisted on the inside  
Next time I open up  
I'll be better off keeping my trust  
Under lock and key  
Those Colorado mountains saving me  
Thought I'd call you up like a lifeline  
But all I'd find is a plane ride  
And I'm feeling like I lost a friend

Gaslighting is no way to save this  
When you're gambling with a guilty conscience  
It's black and white no in between  
Why's it seem you lost your cool  
When I told you I was happy  
But there's trouble with your name on it  
I don't care anymore how far you traveled to see  
Me lose a friend

So I called a plane like a lifeline  
I could not find your intentions  
Was it just a game or are you  
Twisted on the inside  
Next time I open up  
I'll be better off keeping my trust  
Under lock and key  
Those Colorado mountains saving me  
Thought I'd call you up like a lifeline  
But all I'd find is a plane ride  
And I'm feeling like I lost a friend

Or maybe I misunderstand  
Your motives or what you had planned  
A lifetime of friendship  
Guess I'll keep my distance  
Wish that I could take it back

Why couldn't you just tell me  
Like just say that you're lonely  
These dreams just keep repeating  
Over and over and over

So I called a plane like a lifeline  
I could not find your intentions  
Was it just a game or are you  
Twisted on the inside

Next time I open up  
I'll be better off keeping my trust  
Under lock and key  
Those Colorado mountains saving me  
Thought I'd call you up like a lifeline  
But all I'd find is a plane ride  
And I'm feeling like I lost a friend
