

## Lost Within

Fivefold

Crawl out of the hole you're in  
Who you are is not who you've been  
Now's the time to sink or swim  
Will you fight the tide or get lost within  
And I know you're feeling low  
Feel like you've lost control  
But the darkness that you know  
It's not your home and you're not alone

And all you've wanted was just so much more  
This world has taken a hold  
Don't let 'em get your soul  
The silence  
You feel it cold as a winter storm  
This world has taken a hold  
Don't let 'em get your soul

Iron bars are hell to break  
Tell me now, do you know what's at stake?  
Your whole life in a blank stare haze  
You walk around like the end of days  
And I know you're feeling low  
Feel like you've lost control  
But the darkness that you know  
It's not your home and you're not alone

And all you've wanted was just so much more  
This world has taken a hold  
Don't let 'em get your soul  
The silence  
You feel it cold as a winter storm  
This world has taken a hold  
Don't let 'em get your soul

I'm callin' out to you  
Can you hear me?  
They can't break you down  
Let you hit the ground  
I promise you it won't be long  
You're feeling overwhelmed here  
Drowned by the pain and the fear  
The sun will come with the dawn

All you've wanted was just so much more  
This world has taken a hold  
Don't let 'em get your soul  
The silence  
You feel it cold as a winter storm  
This world has taken a hold  
Don't let 'em get your soul  
Get your soul□
