

# What's The Point

Fivefold

All I hear is static in the crowd  
Thousand voices blocking out the sound  
Scream your opinion through the infinite void  
Make a post that we'll all talk about

Find more  
To share for  
Content with life we can't afford

What's the point of living  
If no one else sees it  
Through a filter  
Better than the real thing  
Gotta make 'em like me  
That's all I care about

Disassociation nation  
Feel the tension  
When I'm walking on a wire  
Setting fire to what you really mean  
Well it's hard to say  
With a screen that's in the way  
Making up a tone  
Throwing stones  
At your glass house

What's the point of living  
If no one else sees it  
Through a filter  
Better than the real thing  
Gotta make 'em like me  
That's all I care about  
It's all white noise

Leave it on the online  
Nothing left of you to hide  
Insta of a better view  
Create what we think of you
