

# Where'd You Go

Fivefold

Where'd you go  
Been too long my friend  
Find myself missing you more these days  
Guess that's just the price we pay yeah

Pack it up for the weekend  
Always there for good time  
We spent nights out in the hotel pool  
Spilling drinks and acting fools  
You gave  
Little spark to the open flame  
Straight fire to the hometown scene  
It's all for the better  
Missouri weather  
Gets the best of us these days

Where'd you go  
Been too long my friend  
Find myself missing you more these days  
Basement shows we used to play  
Goes on on and on they say  
Find myself missing you more these days  
Guess that's just the price we pay

Just a mile to go yeah  
Till South Dakota  
Eleven hours is gone so fast  
Jello shots and penny bars  
And moments that will never last

So let's live tonight  
In the God light  
Feeling all sentimental  
Like it's all for the better  
Missouri weather  
Gets the best of us these days

Where'd you go  
Been too long my friend  
Find myself missing you more these days  
Basement shows we used to play  
Goes on on and on they say  
Find myself missing you more these days  
Guess that's just the price we pay

All you want is somewhere you can belong  
Looking for home well you found it  
In this scene that you are proud of  
Searching melody for signs that your here  
A memory makes it clear  
All your friends gathered around for you

Where'd you go  
Been too long my friend  
Find myself missing you more these days

Where'd you go

Been too long my friend  
Find myself missing you more these days

Basement shows we used to play  
Goes on on and on they say  
Find myself missing you more these days  
Guess that's just the price we pay
