

Worst Mistake

Fivefold

The feelings gone
Nowhere to be found
Tell me what's it all for
The love you're faking
Time we're wasting
You were my worst mistake

Leave it alone until the cycle ends
Where did I go wrong? Where do I begin?
My friend, we're going down this time
You're a psycho, a lunatic and I'm the fool
I had my doubts but this time I'm sure
You're an angel with horns and I'm falling for your lie
Every time I try you break me down
Well it's over now

The feelings gone
Nowhere to be found
Tell me what's it all for
The love you're faking
Time we're wasting
You were my worst mistake

I'm taking the fall of the season
I took your word without reason
You took my heart when I was weak
And ripped it open on the street
And I understand that I've played the fool
I had my doubts but this time I'm sure
You're an angel with horns and I'm falling for your lie
Every time I try you break me down
Well it's over now

The feelings gone
Nowhere to be found
Tell me what's it all for
The love you're faking
Time we're wasting
You were my worst mistake
When I see your eyes
I can see right through
Anything that we had
Is gone and over
Need some closure
You were my worst mistake

The feelings gone
Nowhere to be found
Tell me what's it all for
The love you're faking
Time we're wasting
You were my worst mistake
When I see your eyes
I can see right through
Anything that we had
Is gone and over
Need some closure

You were my worst mistake
