

Lights Out

FIZZ

One

Two

Some days fly by
I'm happiest when I don't even try
Grateful for everything
The good and the bad and the terrible

Shaped me
But I've never met anyone quite like you
The only one
I keep coming back to

Lights out
You're all I think about
By now
I thought I'd be over it
Daytime is never too deep
It's only at night when I'm trying to sleep
Lights out
I can't forget it
My tired mouth
Is already over it
Why now
At lights out?

You'd be so proud
If you could
Look at me now
You'd say
"My god, you've changed"
I think I love you
Why would I ever do anything differently?
You're the one I keep coming back to

Lights out
You're all I think about
By now
I thought I'd be over it
Daytime is never too deep
It's only at night when I'm trying to sleep
Lights out
I can't forget it
My tired mouth
Is already over it
Why now
At lights out?

Some days fly by
But I'm happiest
When I turn out the light
