

# HARD

FKA twigs

Wet guys, I'm a static, chemistry was automatic  
Don't touch, blessed and rushed  
I gotta know something about you  
Just tell me, won't you do it hard?  
When I'm done, I think I am a victim of your touch  
Baby, it's you, play my double dutch  
Do it like I'm doing without you  
Just tell me, won't you do it hard?

Do it hard  
If you're gonna love me, do it right and love me hard  
Take me home  
Do it hard  
That body is chic and at the door  
Just take me home, do it hard

A night without sleep over me  
You're just tryna break me down, down, down  
But you don't know her  
Hitting on without your say  
Spinning around and I navigate it  
Waking on me tryna pass the time  
Waking on me tryna get inside

Wet guys, I'm a static, chemistry was automatic  
Don't touch, blessed and rushed  
I gotta know something about you (You, you, you)  
Just tell me, won't you do it hard?

Do it hard  
If you're gonna love me, do it right and love me hard  
Take me home

Would you do it if I didn't ask you?  
Would you give me your love?  
Talk to me, talk to me  
I need your mark or venom, boy  
Would you do it the way I need you?  
I'm the kind of girl that is so physically free  
Physically free  
Like it should be

Wet guys, I'm a static, chemistry was automatic  
Don't touch, blessed and rushed  
I gotta know something about you (Tell me, baby)  
Just tell me, won't you do it hard? (Won't you do it hard?)  
When I'm done, I think I am a victim of your touch  
Baby, it's you, play my double dutch  
Do it like I'm doing without you  
Just tell me, won't you do it hard?

Do it hard  
If you're gonna love me, do it right and love me hard  
Take me home  
Do it hard  
If you're gonna love me, do it right and love me hard  
Take me home (Do it hard, do it hard)

Do it hard (Do it hard, do it hard)  
That body is chic and at the door  
Just take me home, do it hard (Do it hard, do it hard)
