

Hide

FKA twigs

Space

The only thing I ever knew

Place

With the time I know I'll have to choose, no

Stay beneath the ground

Hide away from you

I sink into the crowd

If it meant that I'd escape your eye

Hate

The only thing I give to you

Now

Face me

If you think you can take another route

Out

I let my sight be slayed

If it meant that I could form a view

I found another way

To caress my day
