

Keep It, Hold It

FKA twigs

Sometimes I wanna turn the other way
Sometimes I feel so empty where I lay
And at best I live alone in disarray
I read a million people gotta feel this way

What have I gotta do?
Just keep it walking, keep it walking, hold it close
And what have I gotta say?
Just keep it moving, keep it moving, hold it close
And what have I gotta learn?
Just keep it softly, keep it softly, hold it close
What have I gotta do?
Just keep on walking, just keep it and hold it
Just keep it and hold it, yeah

They speak of me like I'm not in the room
They say I mess up way more than I do
I often look at windows for escape
To be safe
To be safe
I read a million people gotta feel this way

What have I gotta do?
Just keep it walking, keep it walking, hold it close
And what have I gotta say?
Just keep it moving, keep it moving, hold it close
And what have I gotta learn?
Just keep it softly, keep it softly, hold it close
What have I gotta do?
Just keep on walking, just keep it and hold it
Just keep it and hold it, yeah
What have I gotta do?

Sometimes I feel like I'm not even trying
Sometimes I feel miles away
Sometimes I feel like I'm not even trying
That's when my feet start dancing away
Try dry your eyes
You've gotta be from something true to feel this strong and wild
It's in your eyes
Don't keep it, don't hold it
Don't keep it and hold it

Just keep it walking, keep it walking, hold it close
Just keep it moving, keep it moving, hold it close
What have I gotta do?
Just keep it softly, keep it softly, hold it close
And what have I gotta say?
Just keep on walking, just keep it and hold it
Just keep it and hold it
And what have I gotta learn?
Just keep it walking, keep it walking, hold it close
What have I gotta do?
Just keep on walking, just keep it and hold it
And what have I gotta learn?
And what have I gotta do?
And what have I gotta learn?

Close
Walking
Close
Walking
Close
