

## Mirrored Heart

FKA twigs

It's all for the gain  
It's all for the lovers trying to take the breath away  
It's all for the gain  
It's all for the lovers trying to chase the rush again  
It's all for the gain  
It's all for the lovers trying to take the breath away  
It's all for the gain  
It's all for the lovers trying to chase the rush again

But I'm never gonna give up  
Though I'm probably gonna think about you all the time  
And for the lovers who found a mirrored heart  
They just remind me I'm without you

Did you want me all?  
No, not for life  
Did you truly see me?  
No, not this time  
Were you ever sure?  
No no no, not with me

That's why its all for the gain  
It's all for the lovers trying to pache the pain away  
Its all for the gain  
It's all for the lovers trying to fuck away the pain

But I'm never gonna give up  
Though I'm probably gonna think about you all the time  
And for the lovers who found a mirrored heart  
They just remind me I'm without you

Did you want me all?  
No, not for life  
Did you truly see me?  
No, not this time  
Were you ever sure?  
No no no, not with me

Did you want me all?  
No, not for life  
Did you truly see me?  
No, not this time  
Were you ever sure?  
No no no, not with me ooh oh oh

But I'm never gonna give up  
Though I'm probably gonna think about you all the time  
And for the lovers who found a mirrored heart  
They just remind me I'm without you  
They just remind me I'm without you  
They just remind me I'm without you
