

Slushy

FKA twigs

The bluest sky
The deepest night
A slushy
The perfect home
A sweet goodbye
A lover's eyes, ooh

A honeycomb
A bowl of rice
A shoulder
To rest upon
Accoutrements
Someone to phone

Things that make me smile
When my world falls down
Download them from my memory
Running 'round the city with my girls feeling fine
Drop-top down, acting 23
Wondering who I am
If I can
And who I wanna be

Things that make me smile
When my world falls down
You see

I'm gonna make today heavenly
I'll make believe 'til it's right
I'ma create some harmony
And paint my world with my mind

The bluest sky
The deepest night
A flower
A hand to hold
A creature wild
A slushy

Waking up with you kinda late Saturday
In your arms where I wanna be
Running 'round the city with my girls feeling fine
Drop-top down, acting 23
Wondering who I am
If I can
And who I'm tryna be

Things that make me smile
When my world falls down
You see

I'm gonna make today heavenly
I'll make believe 'til it's right
I'ma create some harmony
And paint my world with my mind

The bluest sky

The deepest night
A flower
A hand to hold
A creature wild
A slushy
