FKA twigs

Baby, I'm here in your city, I'm  
Hitting you up for that good, good time  
Just like a movie, a nineties' vibe  
Here for a week, let's pretend you're mine

Don't wanna make it all 'bout sex  
But I like to do that sometimes  
Could be forever or just a night  
Doin' whatever, we're adults, right?

'Cause I'll make you forget  
The time you stressed about your 'nine to five'  
Pick you up in style  
You're sexy and you're worth my while

I wanna take you out sometime  
I wanna take you out

Sushi on Monday  
Dancing on Tuesday  
Karaoke Wednesday  
I wanna take you out  
Paris on Thursday  
Do you like Pilates?  
Work you out on Friday

I wanna take you out  
I wanna take you out  
I wanna take you out sometime  
I wanna take you out  
I wanna take you out

Baby, I'm here in your city, I'm  
Hitting you up for that good, good time  
Whatever the weather, we're going outside  
Birds of a feather, we're going all night

And no, I still can't drive  
But me and my sassy friends can pick you up  
Treat you fancy nice  
You're sexy and you're worth my while

I wanna take you out sometime  
I wanna take you out

Walk for me  
I'll see you after the function  
Now hold that pose for me

I wanna take a-you out  
I wanna take a-you out

Spa, club, trampolining  
Take you to the beach, Aquamarina  
I wanna see you skinny dippin'  
Car wash with a Margarita  
I wanna cinema somewhere outside  
I wanna cinnamon bun on a bike  
Take you out shopping at night  
Car racing  
Rave, country life  
Would you be surprised to know that  
My karaoke song is a 'Gasolina'?  
I said it, esto te gusta  
'Cause I wanna take you out!

Sushi  
Got me feelin' fish tonight (Gotta gimme that)  
Roll me into the moonlight (Gotta, gimme, gimme, gimme, gimme that)  
Sushi (Gimme that good)  
Got me feelin' fish tonight

You ready?  
I'm gonna, gonna, gonna take you out  
I'm gonna, gonna, gonna take you out  
I'm gonna, gonna, gonna take you out  
You're never gonna take me out

I'm gonna, gonna  
You're never gonna, gonna  
I'm gonna, gonna  
Never ever gonna, gonna  
You never, never gonna  
You're never gonna take me  
Take me  
Out
