

## Brass Necklace

FKJ (French Kiwi Juice)

Blessed with  
How you ring 'round all my edges  
You like me and my brass necklace  
Made it myself, I designed it  
Just like the whole life I live in  
And I've got a whole lot to live for  
But when you come back from the long tour  
You come back like you know for sure

You know you make it much  
Better  
'Cause you make it  
Better  
You make it  
Better  
When you're around

Blessed with  
Eyelashes blowing your wishes  
Angels adore us with kisses  
Like they all wanna be witness  
That something could exist as real as this  
And I know we won't be forever  
So next life, if we meet all over  
I hope you make me remember

I know you made it much  
Better  
'Cause you make it  
Better  
You make it  
Better  
When you're around
