

Capes

Flame

Sheesh!

Bust down, bust down

I feel like, got it right (yeah, yeah!)

I feel like a super hero way up, (way up, way up, way up)

Bout to put my super hero cape on

I just tell the devil never mind now

God gave me the light

And told me shine now

I feel like a super hero way up, (way up, way up, way up)

Bout to put my super hero cape on

I just tell the devil never mind now

I just got the light

It's time to shine now

Tried to stop me

Had to dump 'em (had to dump 'em)

Any hunnids

In the duffel (in the duffel)

So glad

I didn't sign now

I feel like airline

This my time now

They say, "You from Section 8"

Medicate, get that money crap

You can catch a fade

I won't trade for a hunnid bands

OK, might not catch a fade though

But I won't ride yo' wave though

Word to [?]

On my island, not so bueno

Might just drop you my location

Way up, you a see

Ain't nobody clout chasin'

Pull up, that ain't me

See my team we double down (double down)

Count of 3

Then we off to save the world

It's time to shine now

I am the one with the Light now

When I pipe down, oh, I guess I gotta curve 'em

Till the day I put the mic down

I'm bringin' Christ down till they bloody, bloody murder me

Stole my heart like a burglary

Opened it up and did surgery
Tell 'em who I was, they never heard of me
And I love 'em like certainly
Leave the bag through the gas way
That won't last on the last day
Was a [?] when you hurtin' bad
When you dumpin' ashes in the ashtray
Poppin' pills, on percocet
Tryna heal, it ain't workin' yet
Still depressed, I know you feel the way
I know you feel the way to just have faith

Might just drop you my location
Way up, you a see
Ain't nobody clout chasin'
Pull up, that ain't me
See my team we double down (double down)
