

Let Us Remember

Flame

Let us Lord
Let us remember
Let us remember
It's the Water and Your Word
You have to cleanse us
You have to cleanse us
You made us brand new oh Lord
Thank You for bringing us close
So let us Lord
Let us remember
Remember

God I tried, tried to scuba dive
Tried to plumb the depths
In the ocean of affections
And it left me out of breath
God I tried, tried to stay in line
Perfectly in step
Tried to keep Your marching orders
But my heart kept going left
I said God, I'm trying to survive
My conscious is wrecked
It's a mess
I need strength
Trying to live this life in the flesh
This is why need to look outside
Outside of yourself for your help
If your faith's in God and you've been baptized
Then you're blessed
You possess victory over devil death
Forgiveness, God's grace
Triune God and His gifts
To Your word I cling
Continue in sin
By no means
Romans 6 baptized in Him
I rise with Him
So I'm clean
Extra Nos

Let us Lord
Let us remember
Let us remember
It's the Water and Your Word
You have to cleanse us
You have to cleanse us
You made us brand new oh Lord
Thank You for bringing us close
So let us Lord
Let us remember
Remember

Now I can put that old Adam down
Water and the Word make that old Adam drown
When I see him swimming back around
Spirit working in me now He spinning on them now
You say how can water keep your soul in order

I say that's apart of it but it's more than water
It's the word of God in and with the water
With out faith and His word it's just plain water
Paul taught us
About a washing in Titus 3 and 5
Whereby the Spirit regenerates us and saves lives
We just lend our limbs
But it's Him
Doing the baptizing
Sweet Sacrament
Where God acts
Outside of us

Let us Lord
Let us remember
Let us remember
It's the Water and Your Word
You have to cleanse us
You have to cleanse us
You made us brand new oh Lord
Thank You for bringing us close
So let us Lord
Let us remember
Remember
