Racial Diversity

Flame

Let us remove any muzzle that's been keepin' us quiet
from speakin' about Jesus' died for a colorful bride
He purchased a people from every nation tongue and tribe
read the wordsin Revelations chapter 5 verse 9
and you will see
God's pursuit for racial diversity
and harmony at an infinite cost the emergency is
for His people to that the urgency is
for us
to put much
emphasis on diversity plus
and it's hurtin' me cause
that it's certainly us
who ignore the purpose of Him dispersin' His blood
at the center of the crucifixion
though it's cruel and it's sickening
we can see that God He has proved His intentions to us
to be unified as kings and priests
but since Jesus died seems like these things done ceased
Sunday mornin' see us separate
early we awake
to worship our God and go our separate ways
why?

Let us be one in you
the way you want us to
multicultural as we walk together in love for the world to see
Ask John Newton the same dude who used to trade them slaves
was changed and wrote Amazing Grace
an ex-racist
he must of recognized that blacks like whites like Asians
cause of Christ even have secure places
let us pray this
because a kingdom divided against itself will not stand in its places
let us pray to be free from hostility
from prejudiceness mistreatin' to peace and tranquility
plus no more racist jokes no more suspicions
no more disgust or ridicule among Christians
don't call it black church
don't call it white church
cause when we look in the scriptures we see it's Christ church

Let us be concerned that we lovin' the way we see Jesus lovin'
every ethnicity and every color
cause this is God's will
can we hang out together outside of the church settin'?
here on earth can we have a dress rehearsal for heaven
that would be excellent just to see us worship together
and hangin' out as we learn about each others' endeavors
I know it sounds scary comin' out your comfort zone
but that's the way its gone be when Jesus come takes us home
so let us prepare an intentional plan and a way
and come together and stop stayin' away from each other
my sister my brother no matter your color I love ya
let's be like Jesus and start prayin' for each other

[Hook]
