

We Ain't Even Know

Flame

Everything you think Roman Catholic you're trained to reject
It's a shame 'cause your timelines backwards
And your interpretation came afterwards
Raised in the West
In America
Influenced by the Baptist
It's a reason we don't wear crucifixes
With Jesus on the Cross bleeding
Or even baptize infants
They say public professions conversions and such
Before you're excepted in the Church is a must
It's a reason we don't value tradition that much
Decisions that shifted like stick in the clutch
Traditions that came in Particular Baptist
With their interpretation of particular chapters

Decisions got made for us bro
We ain't even know
We ain't even know about it sis
Matter of fact
We didn't exist
But now you know
Please can you be apart of the convo
Say you got no type of affiliation
Say you a part non-denomination
Say you only focus on salvation
You bout debate or separation
I get
Trust me
You're Baptist
Let me cook though

What's the point
Why I'm so lit
Why I ain't rapping bout the things I was saying back in 06'
Cause I learned there was a lot missed
Not everything
But important things that the Church flipped
For example certain verses
That communicate gift
That we turned into work it's
Tied to the Arbella Ship
That carried over Christians that switched up the Eucharist
That ferried over to this Land for emancipation
And religious freedom don't need toleration
Scared by the Papacy and Charles the 2nd
The one who had John Bunyan thrown into prison
Vestments
Candles
Anglican culture
The Christian calendar
The liturgy
They over it
That whole ethos
Many tossing it over
Now here we are
Repeating back

Only what they told us

Decisions got made for us bro

We ain't even know
