

# We Need You

Flame

I watch cats go from playin' kickball to carryin' clips and slugs  
And girls who played hopscotch to now strippin' in clubs  
Man it all started just sippin' some bud man  
Until she got tricked and then she tripped with the drug man  
See you remember old girl she was so pretty  
I guess smokin' that dope makes you look old quickly  
Dude was so smart in school now he's gettin' high  
He had plans for the league now he's just gettin' by  
I guess the older you get  
It's like the more you forget  
That Jesus Christ that granny molded you with  
Yeah that must be the thing before you see the King  
Jesus must awaken you from your street dream  
Lord my prayer is this  
Thank you that prayer exist so you can take us away the worst terrorist  
Which is ourselves our sin in which I must admit  
There was peace in the garden Lord and now there is this

We need  
We need  
We need  
oh yes we do  
We need you  
We need you  
We need you  
Lord everyday

Young dood only thirteen  
But he think like he thirty cause the stuff he seen  
Aint no food in the house plus the mustards green  
And mom nem pound they things man they must be fiends  
She was lying that TV aint have no busted screen man  
Sometimes I cry sometimes I scream man  
It's our sin that we living in dying in  
We need Him just to live again we blind men  
How real is that God wanna save us from wrath  
But don't know equals like equations from maththat equals restoration reconc  
iliation  
New heart new start peace and plus some patientsbasically man the fruit of t  
he Spirit  
Happy to plant seeds aint gotta see the fruit of my lyrics  
Let the seeds see the increase that God has made  
I'm just pleased knowing Jesus is the God that saves  
And that's why

We need  
We need  
We need  
oh yes we do  
We need you  
We need you  
We need you  
Lord everyday

I never seen a tree live dawg out of the ground  
That's like man with out God tell me how does it sound  
Like a Gomorrah and Sodom men sound

He still owns you even if you out of town man  
He's tracking you now like music with sound scan  
Especially you doods that be usually down playing Him  
And never realizing it's Him that's keeping us breathing  
Recognize that we heathens  
Recognize that we need Him  
Yeah He know we suffer but His son suffered worse  
Imagine Him coming to earth and becoming a curse  
Well it happed don't waist your time rapping about  
Wakness that really deserve a smack in the mouth  
Especially taken on flesh is an immaculate rout  
Lived perfect died rose said that I'll be back and I'm out  
Plus the bible says blessed is the poor in spirit  
So he who has an ear let him hear it  
I' out fam

We need  
We need  
We need  
oh yes we do  
We need you  
We need you  
We need you  
Lord everyday
