

Be Free, A Way

Flaming Lips

Did good, baby
So we can go
The time right now
Thing is

The sun shines now
But we're so alone
It's not, tis not
The light
That shines

The way, away
My heart can beat
Be free and go
Our days
Are empty

Is the love the god
That we control?
To try to trust
The pain

The sun shines now
But we can't see
Its light lights now
We live
The same

Be free, away
But how can we
Find ours to hold?
A place
(2x)

A place away
Away
Away
Away
Away
