

Brother Eye

Flaming Lips

Brother, I don't want you to die
Brother, can you live forever?
Brother, I don't wanna cry
Oh, can you live forever?
Can you live forever?

You were born, and the dark was changed
Like the stars into the night
Like the sun breaking through the sky
Brother eye, eye

Brother, I can see it through your eyes
I'll know where you look for something better
And you can try to act like it's forgotten
Ah, I see it way too often
I see it way too often

You were born, and the dark was changed
Like the stars into the night
Like the sun breaking through the sky
Brother eye

Can you live forever?
Can you live forever?
Can you live forever?
Can you live forever?
