

Dinosaurs On The Mountain

Flaming Lips

So tell me now

So tell me now
How'd it happen
After the lava flows
Maybe no one knows
Now that it's burned off
The scum of the Earth
I wish the dinosaurs
Were still here now
Be fun to see them playing
On the mountains

Up on the mountain they'd be all alone
We can't just leave them on the side of the road
You know they'll never make it on their own
All alone, all alone

Up on the mountain, that mountain's too high
You can't just leave 'em there, you know that they will die
They won't make it even if they try
All alone, all alone, all alone

Oh, I'm just wishing
Oh, wishing
Something else had happened
All those years ago
Things could have been so great
But now I think it's too late
To see them playing on the mountains

Up on the mountain they'd be all alone
You can't just leave 'em on the side of the road
You know they'll never make it on their own
All alone, all alone

Up on the mountain that mountain's too high
You can't just leave 'em there, you know that they will die
They won't make it even if they try
All alone, all alone, all alone
