

It's Summertime (Throbbing Orange Pallbearers)

Flaming Lips

It's summertime - and I can understand if you
Still feel - sad -
It's summertime and though it's hard to see its true
possibilities -

When you look inside - all you'll see
When you look inside - all you'll see
Is a self-reflected inner sadness -
Look outside - I know that you'll
Recognize it's summertime
