

## Oh My Pregnant Head (Labia in the Sunlight)

Flaming Lips

When will you shut your mouth  
Stop all the vibrate  
Birds flying out of a mountain  
Somewhere the snow cools my fever  
I just have stumps left for fingers  
Wonderin' can you still play guitar?

Just like a baby  
Just like the smoke rings  
Labia in the sunlight

When will you stop all yours buzzing  
Smow crushing hummingbird  
(all day)  
Somewhere the star burns the universe  
Gold eagle paints in my fingers  
(all day)  
Can of spaghetti diseases  
Hopin that you can still play guitar?

Just like a baby  
Just like the smoke rings  
Labia in the sunlight
