Powerless

Flaming Lips

Honey, you're just paranoid You should do what you enjoy No one is ever really powerless That's what she said and she gave me a kiss No one is ever really powerless Now I think I know what that really is

It only happens if you try
Pain and pleasure both get you high
No one is ever really powerless
That's what she said, now I can't forget
No one is ever really powerless
No I think I know what that really is
