

Take Me To Mars

Flaming Lips

Yeah, 'cause when I drive in my car
We put heads in jars
So take me please, take me to mars
I want to go where they are
I want to go where they are
I want to go
Yeah, and if I'm lost, well I don't care
Cause I walk on endless stairs
You say it's me, I think it's you
Who can blame us for thinkin' the way we do
Cause we don't care what we are
Cause we don't care what we are
Take me please, take me to mars (3x)
Take me to mars (5x)
