

The Abandoned Hospital Ship

Flaming Lips

Well it took some time
Cause it's a lot
God, it's a bunch
It's such a big, old, black golden buzz

And yeah, it took some help
With lots of machines
The experts could tell
With their equipment pushed to the max

And sure it seems easy now
But I tell you what
We were perplexed finding the needle
In the needle's disguise

And now that it's conceived
The station has all settled down
And I'm sort of relieved
And I'm getting over it now
