Flower gun  
Now you're on the run  
Flower head  
Now all your friends are dead  
And their ghosts  
Floating around your bed  
Hear it said  
Now all your friends are dead

Will you return?  
Will you come down?  
Will you return?  
Will you come down?  
Will you return?  
Will you come down?

Shooting star (Shooting star)  
Crashing in your car (Crashing in your car)  
What went wrong? (Singing songs)  
Now all your friends are gone (All your friends are gone)  
And they scream (And they scream)  
Screaming from beyond (Screaming from beyond)  
Hear their song (Hear their song)  
Now all your friends are gone

Will you return?

Will you return?  
Will you return?  
Will you return?  
Will you return?  
Will you return?  
Will you come down?  
Will you return?  
Will you come down?  
Will you return?  
Will you come down?  
Will you return?  
Will you come down?  
Will you return?
