

Communication Breakdown

Flash and the Pan

Oh Susie girl you been wasting time
You've been in space when you could've been mine
And it seems such a pity
That's the way that it should be
But if it's alright with you baby
Then it's alright by me

I had you down for a number one
Things ain't bad but they sure ain't fun
And it seems kind of silly
Such a bad way to be
But if it's alright with you baby
Then it's alright by me

Communication breakdown
Communication breakdown
Communication breakdown
It ain't that we don't have nothing to say
It's more that the words just get in the way

Communication breakdown
Communication breakdown
Communication breakdown

One of these days when you look around
You'll realise it's along way down
But you know what you're doing
How you want it to be
But if it's alright with you baby
Then it's alright by me

It's a communication breakdown
Communication breakdown
Communication breakdown
It ain't that we don't have nothing to say
It's more that the words just get in the way
Communication breakdown
Breakdown, breakdown, breakdown, breakdown
