

A Cowboy Knows How

Flatland Cavalry

A telephone call
A pay phone in Dallas
Stumble in drunk
Fist full of wild flowers
Reckon I would of left too if I was you
Cause looking back now I loved you
The only way a cowboy knows how

Might as well find me a sunset and ride off in it
Find me a ghost town and disappear in it
Saddle some bar stool up until you're gone
Find me a jukebox heart break song
Play it over and over till the cows come home
Get back on that horse and get over you
The only way a cowboy knows how

If your heart was barb wire
Maybe I could mend it
If your heart was a wildfire
Baby I'd tend it
Reckon I would of left too if I was you
Cause looking back now I loved you
The only way a cowboy knows how

Might as well find me a sunset and ride off in it
Find me a ghost town and disappear in it
Saddle some bar stool up until you're gone
Find me a jukebox heart break song
Play it over and over till the cows come home
Get back on that horse and get over you
The only way a cowboy knows how

Might as well find me a sunset and ride off in it
Find me a ghost town and disappear in it
Saddle some bar stool up until you're gone
Find me a jukebox heart break song
Play it over and over till the cows come home
Get back on that horse and get over you
The only way a cowboy
The only way a cowboy
The only way a cowboy knows how
