

Dancin' Around A Fire

Flatland Cavalry

Hey baby, you and me been dancin' around a fire
One misstep from fallin' into smolderin' desire
Like moths drawn to the moonlight after the summer sun retires
Hey babe, you and me been dancin' around a fire

It's just one two-step from goin' down in flames
And waltzin' around the ashes in the mornin'
Searchin' for the spark to blame

Sawdust, smoke and lights
Mirrored moon burnin' bright
Would ya hold me close and tight now, babe?
Dancin' with danger in the arms of a stranger
Circlin' down a dancehall drain

Early mornin' light shines through a stained glass window
Outshinin' neon signs and dives that only we know
The preacher's leadin' the service, and you're singin' in the c
hoir
Lead us not into temptation, no more dancin' around a fire

'Cause it's just one two-step from goin' down in flames
And waltzin' around the ashes in the mornin'
Searchin' for the spark to blame

We've been dancin' around a fire
Been dancin' around a fire
Been dancin' around a fire
