

Don't Have To Do This Like That

Flatland Cavalry

You scream my name
Why haven't I learned my lesson?
Always guessing when the next storm will rage into a hurricane
And we scream some more
A midnight summer's dream
Caught between sorrow and a slammin' door

We don't have to do this like that
Comin' at it like a heart attack
All our tears can't wash the hurt away
It's a shame we had to fall this far
To find the bottom of a broken heart
Ain't nothin' left down this path
We don't have to do this
Have to do this like that

And I'll take the blame
Take it on the chin
Confess my sins
Let you in
But it can't be guilt and shame
All the time
I've changed my mind
There ain't no turnin' back
On a one-way track

We don't have to do this like that
Comin' at it like a heart attack
And all our tears can't wash the hurt away
It's a shame we had to fall this far
To find the bottom of a broken heart
Ain't nothin' left down this path
We don't have to do this
Have to do this like that

We don't have to do this like that
Comin' at it like a heart attack
And all our tears can't wash the hurt away
It's a shame we had to fall this far
To find the bottom of a broken heart
Ain't nothin' left down this path
We don't have to do this
Have to do this like that

We don't have to do this like that
We don't have to do this like that
