

Forgotten

Flatland Cavalry

Where will you go my dear, when home stops callin'?
Won't you feel lonely?
When the last note fades and stars start fallin'?
Where along the road did you stop dreamin'?
You can't pick up the pieces
When your broken heart stops beatin'

Going far from your problems
Going nowhere fast won't solve 'em
Going, showing no signs of stoppin'
Just going, going, gone, forgotten

Did you forget your dandelion wishes?
When we were children and you still believed in forgiveness
Whisper a goodbye prayer into the aether
Godspeed my love
One last chance that I might reach ya

Going far from your problems
Going nowhere fast won't solve 'em
Going, showing no signs of stoppin'
Just going, going, gone
Going, going, gone
Going, going, gone, forgotten

Where will you go, my dear, when home stops callin'?
Won't you be lonely?
When the last note fades and stars start fallin'?
