

If We Said Goodbye

Flatland Cavalry

The beer is hot
The folks are cold
The night is young
And I feel old
I tried and tried
To no avail
Gave me your heart
And it went to hell

And I can't remember now whose fault it was
Not that it matters anyway
You left me standing in that driveway dust
You cranked your car and drove away
And I saw it in your eyes
But I can't recall
If we said goodbye

Eyes like glass
And a kiss like rain
One to dance
While the radio sang

And I can't remember now what song it was
Not that it matters anyway
You left me standing in that driveway dust
You cranked your car and drove away
And I saw it in your eyes
But I can't recall
If we said goodbye

Guess I'll just try
To move on
And say goodbye
Now that you're gone

And I can't remember now whose fault it was
Not that it matters anyway
You left me standing in that driveway dust
You cranked your car and drove away
And I saw it in your eyes
But I can't recall
If we said goodbye
